# INDEX to 1986

| | | |
|---|---|---|
| Access equipment profile | p46 | March |
| Aith breakwater for RNLI | p33 | September |
| Along the political highway | p34 | October |
| An update on admixtures | p28 | April |
| Apollo arrives at Colman's | p44 | Jan/Feb |
| Armour units – unsound testing | p21 | Nov/Dec |
| Assessment and redevelopment of derelict sites | p44 | May |
| Assimilating concrete progress | p43 | August |
| Bentonite for seepage control | p30 | May |
| Blind shaft drilling for Betws mine | p54 | April |
| Block paving – design guidance review | p17 | August |
| Bridge damage caused by vehicular impact | p14 | May |
| Call for papers | p12 | October |
| Cathodic protection of steel reinforcement | p37 | August |
| Cladding Gatwick's new North Terminal | p58 | April |
| Cold-rolled sheet piling system | p31 | March |
| Compaction equipment profile | p51 | June |
| Computer science in surveying | p21 | Jan/Feb |
| **Computing** – a regular monthly feature. Particular features included: | | |
| A fast and efficient method for predicting cooling profiles in bituminous materials | p24 | June |
| An integrated approach to large projects | p12 | May |
| Computerised borehole data system | p40 | March |
| Matching the needs of the civil engineer to a computer | p25 | April |
| Concrete and clay pipes | p31 | Jan/Feb |
| Concrete products profile | p58 | August |
| Concrete repair after rebar corrosion | p38 | Jan/Feb |
| Construction expenditure and economic development | p9 | September |
| Construction on unstable land | p21 | March |
| Contract strategy | p44 | Nov/Dec |
| Cost-cutting dry diamond | p49 | July |
| Courses | p54 | Jan/Feb |
| Courses – A recent DES report suggests that action is needed on mid-career updating | p45 | June |
| Current trends and future developments in steel buildings | p13 | July |
| Delta closes the floodgates | p31 | October |
| Design in refurbishment | p28 | Jan/Feb |
| Diamond cutting and sawing | p28 | June |
| Diamond cutting and sawing | p45 | October |
| Drainage | p17 | September |
| Fibrated cement without asbestos | p39 | Nov/Dec |
| Fire Protection for structural steel | p10 | May |
| Fixings and fastenings profile | p49 | May |
| Flat roofing | p27 | Nov/Dec |
| Foamed concrete – another option | p29 | October |
| Formwork – a guide to good practice | p47 | August |
| Formwork and falsework profile | p48 | Jan/Feb |
| Foundation Engineering | p50 | September |
| Gabion reef secures birdlife | p55 | April |
| Geotextiles – application on site | p10 | June |
| Geotextiles – compatibility and use | p9 | April |
| Ground freezing techniques | p11 | Nov/Dec |
| GRP armour-coated jacking pipes | p49 | August |
| High performance coatings | p19 | March |
| Improving the Flexilink | p14 | March |
| Index to 1985 | p49 | March |
| Jumbo to land at Calais | p21 | October |
| Low cost construction techniques for small hydro | p39 | September |
| M25 Swanley-Sevenoaks link opens | p53 | April |
| Machine foundations – investigation of failures | p13 | October |
| **Measured Rates** | p42 | March |
| | p47 | June |
| | p39 | October |
| Mecca's Big Door | p30 | October |
| Mepas Shaft – world's largest precast rings | p50 | June |
| Merseyside dock development | p46 | May |
| Meteorological services aid civil engineers | p50 | April |
| Microsilica – a future in concrete | p32 | August |
| Multi-storey construction – trends turn to steel | p23 | October |
| New construction techniques in sewers | p17 | October |
| On-site handling equipment profile | p61 | September |
| Pfa first at Fiddlers Ferry | p11 | October |
| Pile driving equipment | p21 | May |
| Plant – Concrete cruncher | p26 | Jan/Feb |
| Demolishing a concrete chimney | p61 | April |
| Vacuums the seabed | p36 | March |
| Pointers to a rooftop decision | p35 | April |
| Pore water pressure measuring system | p39 | June |
| Prevention or cure | p27 | August |
| Problematic rock-soil material | p43 | July |
| **Product Profile** – Formwork and falsework | p48 | Jan/Feb |
| Access equipment | p46 | March |
| Trenching and shoring | p43 | April |
| Fixings and fastenings | p49 | May |
| Compaction equipment | p51 | June |
| Pumps and site dewatering equipment | p37 | July |
| Concrete products | p56 | August |
| On-site handling | p61 | September |
| Surveying equipment | p52 | October |
| Piling equipment | p13 | Nov/Dec |
| Protective coatings for steel: initial costs in perspective | p35 | September |
| Protective coatings: writing a paint specification | p39 | May |
| Pumps and site dewatering equipment profile | p37 | July |
| Recycling concrete for motorway construction | p55 | March |
| Redcar rekindled | p16 | October |
| Refurbishment – from hotel to office space | p27 | June |
| Refurbishment | p45 | September |
| Rehabilitation of water mains | p35 | March |
| Research and development relating to bridges | p40 | April |
| Return to refurbishment | p35 | August |
| SERC flood channel facility | p50 | July |
| SERC serious about civil engineering | p34 | May |
| Secrets unearthed in prison contract | p15 | September |
| Sewer rehabilitation options | p9 | March |
| Sewers | p31 | July |
| Snow loading | p24 | Nov/Dec |
| Solving the problem using friction clamps | p38 | March |
| Specialist coating systems | p23 | Nov/Dec |
| Sticky solution for Cardiff viaduct | p15 | August |
| Success and failure of major projects | p17 | Jan/Feb |
| Surveying | p21 | July |
| Surveying equipment profile | p52 | October |
| Tackling the problem of cross-carriageway runoff | p41 | May |
| Trenching and shoring profile | p43 | April |
| Uncertainties in assessing the durability of concrete | p10 | August |
| What's new about 'small hydro' – a consulting engineer's view | p33 | May |
| Wider applications for slurry trench cutoffs | p42 | Jan/Feb |
| Workload turns to refurbishment | p49 | Nov/Dec |
